### Disclaimer

The information contained in this section is provided for your general information only and is not designed nor intended to offer anything more than information only.

The information with respect to the companies included in the Peer Review was retrieved from publicly available information being annual reports and company websites on the one hand and from analyst reports we received on the other hand. In some cases, we had to give our own interpretation to the available information in order to get comparable indicators.

As a consequence of using different sources combined with giving our own interpretation to the available information, the information may not always be correct and SIPEF does not accept any liability for loss and damage that may arise from relying upon this information.

## Peer review

### Principle assumptions

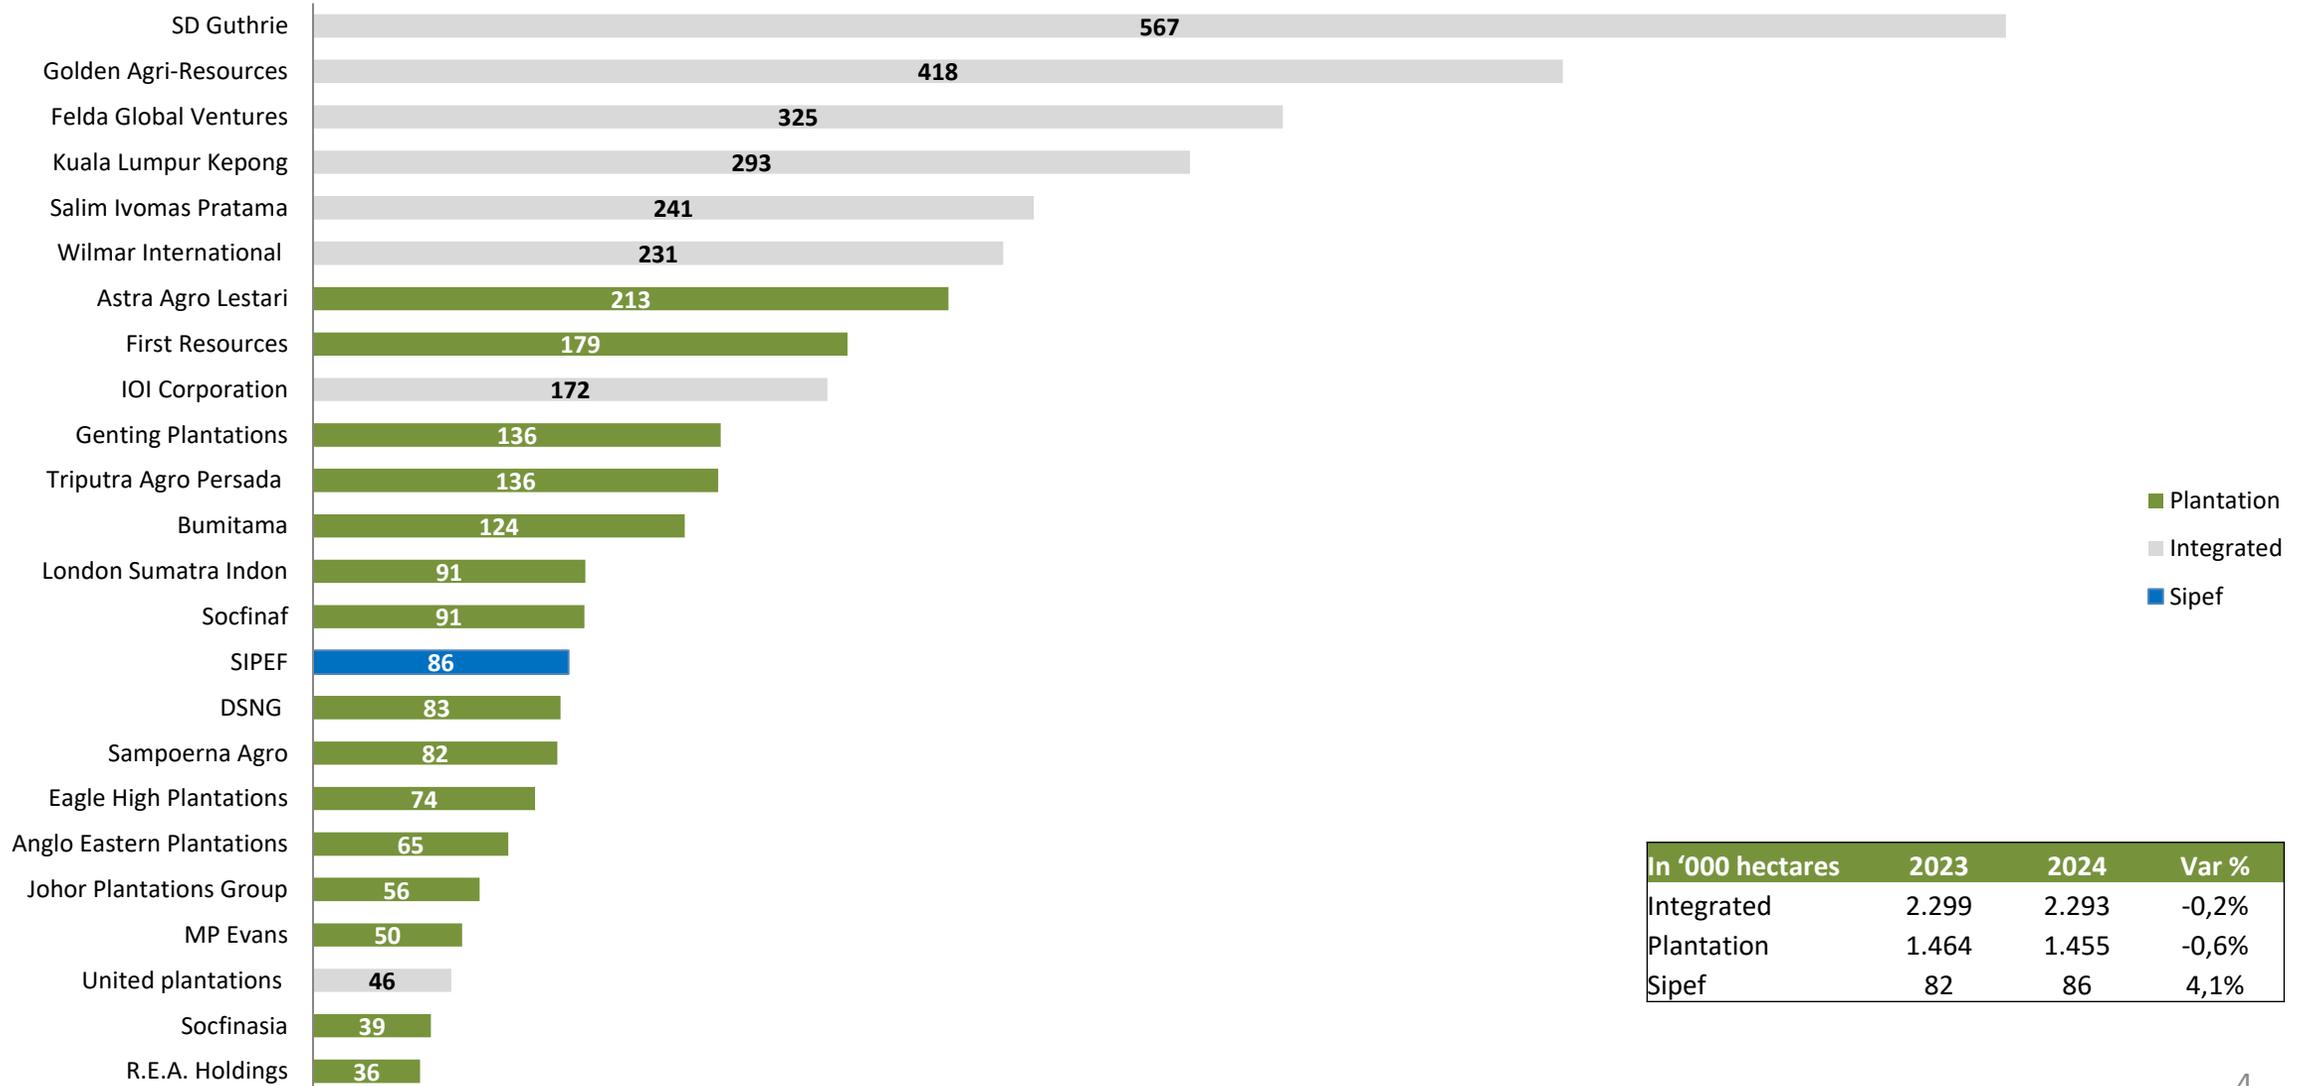

- Benchmark of main industrial competitors
- Age profile based on own ageing interpretation
- Market capitalization is calculated based on the average exchange rate & average share price of the year unless stated differently
- Benchmark based on own CPO productions of competitors:

	<b>Tons</b>
CPO own production benchmark (2024)	12 300 156
Worldwide production ( <i>Oilworld<sub>1</sub> 2024</i> )	79 123 000
<b>Total representation in %</b>	<b>15.55%</b>

- Assuming that the sample includes 50% of industrial comparable companies, the representative sample amounts to **31.09%**
